

My name is: _____

What you need for this activity:

PVA glue in a squeezable bottle with a nozzle, glitter or sand, plus trays to contain the mess!

Fine Motor Skills Activity: Sprinkling fine particles using fingertips.

Use pencils or crayons to fill in the fish. (Leave the dotted stripes empty.) Squeeze a line of glue inside the letter 'f' outline. Start at the dots and follow the arrows. Squeeze glue along the dotted stripes on the fish from left to right. Place the sheet in a tray with the glue facing up. Carefully sprinkle glitter or sand over the page to cover the glue. Lift the page, gently shaking the excess into the tray. Set aside to dry on a flat surface.
