| Name:  | O Usa                                  | e a ruler for this worksheet            | 10 |
|--|--|---|----|
| - Locating angles on 2 dimensional shapes ———————————————————————————————————— |  |   |    |
| Trace the angles to complete each shape.                                       |  |   |    |
|  |  |   |    |
| Trace each angle.  |  |   |    |
|  | ************************************** | \                                       |    |
| Complete each angle by joining the dots – Circle the right angle.              |  |   |    |
| •  | •                                      | •                                       | •  |
| •  | •                                      | •                                       | •  |
| Draw four angles - (Make one a right angle).                                   |  |   |    |
|  |  |   |    |
